## WATERWAY AID SOUGHT.

President Harding is urged to lend his support in the development of inland waterways of the Mississippi valley and the west because of high rail transportation rates, in a letter from former Representative B. F. Welby of Ohio, made public today at the White House. Mr. Welby announced at the same time that he had sought the aid of members of the Senate and House to further such plans in Congress.

Mr. Welby accompanied his letter with data giving a comparison of freight charges, water and rail, between various points in the United States. These figures, he declared, were conclusive evidence of the need of utilization of waterways not now being developed. He called the President's attention to the expected early resumption of traffic on certain Ohio barge canals and the effect it would have on the economic situation locally.

## AGREE ON TARIFF.

Emergency and permanent tariff bills moved a step forward yesterday in Congress. Senate and House conferees reached an agreement on the emergency measure, and a joint resolution was introduced by Representative Longworth of Ohio in the House to make all rates carried in the forthcoming permanent schedules effective from the date the bill is introduced in the House.
